

Burbank to Los Angeles Project Section

Community Open House Meetings: November 29 - December 6, 2016

Please join us at one of the upcoming Community Open House Meetings

The **Burbank to Los Angeles Project Section** is 12 miles of the first phase of the California High-Speed Rail system, connecting Burbank (airport area) and Los Angeles Union Station. The California High-Speed Rail Authority (Authority) completed the Supplemental Alternatives Analysis (SAA) for the Burbank to Los Angeles Project Section in April 2016. As part of the development of the SAA, an updated alternative was recommended with design variations/options at specific locations. The alignment has been further refined to identify street and rail crossings that will need to be modified. Possible locations have also been located for additional high-speed rail features, including paralleling stations, communication towers and switching stations.

The Authority is asking for feedback on the proposed project to advance a staff recommended preliminary preferred alternative, which will be carried forward in the draft environmental document. The Authority invites you to attend an upcoming open house to ask questions and provide input regarding effects to the environment, including biological resources, cultural resources, air quality, noise, community impacts, environmental justice and more. Your early feedback regarding potential environmental issues is important and will allow us to take your concerns into account as part of the project decision-making process.

MEETINGS CONTAIN IDENTICAL INFORMATION; PRESENTATION BEGINS A HALF HOUR AFTER THE NOTICED START TIME
